

TRANSFER OF RECORDS

International students who have obtained a UNEDasiss accreditation are not required to transfer their academic records to start undergraduate studies at Spanish universities.

Universities can access prospective students' official certificates through UNEDasiss's digital platform without having to pay any transfer fees.

When applying to university, prospective students will only have to present their UNEDasiss application receipt, along with an informative document they can download from UNEDasiss's digital platform. Both documents are found in the "Comprobante" section of the applicant's profile.

If a student desires to submit an official copy of their UNEDasiss accreditation to any institution, they can request the document by logging into their UNEDasiss online profile. After completing payment, they will be able to download the document.
